

Fall Chiropractic Orientation Feedback Form

See Video Orientation (www.fallchiropractic.com) or in-office handout to complete this form before consultation.

Principle #1: "The body is created with innate capacity to maintain _____, within the limits of matter."

Principle #2: "The main tool used to maintain order in brain and body cells is the _____ system (brain+spinal cord+vertebral bones)."

Principle #3: "Neuro-spinal Interference from vertebral _____ reduces order in brain and body."

Principle #4: "Vertebral Malposition occurs commonly due to modern _____."

Principle #5: "Chiropractors find and clear vertebral malpositions for brighter _____ connections for brighter expression of life."

Basis of the Honor Box #1: "Persistent modern stressors make _____ chiropractic care necessary for all."

Basis of the Honor Box #2: Chiropractic care is so necessary that no member of any household should be denied care for _____ reasons.

Box Rule #1: "Ensure that you and your household get spinal checks at least _____."

Box Rule #2: "At each visit, pay the maximum you can easily _____ for you and your family."

Box Rule #3: "Spread the word and refer those you _____."

1. What is the purpose of an adjustment?

- Brighten neural connections*
- Make pains and symptoms better*

2. In the "Safety Pin Model," which is better?

- Safety pin closed / Neural connection*
- Safety pin open / Neural disconnect*

3. What do Chiropractors feel in your spine to check for a Vertebral Malposition?

4. What is your most common of the 3 stressors causing Vertebral Malpositions?

5. What do Vertebral Malpositions cause?

- Pain & disease & medical conditions*
- Neuro-Spinal Interference*

6. What does Neuro-Spinal Interference cause in the brain and/or body?

- Obvious symptoms that you feel
- Disorder in brain/body function.

7. How often should we be checked for Vertebral Malpositions?

- Weekly because of daily modern stressors
- When painful because chiropractors cure pains

8. List one place you plan to ask those you care about: "Have you had your spine checked?"
